COMMERCIAL INTELLIGENCE

THURSDAY EVENING, AUGUST 28.

MONEY tends cheaper again in London, the market rate of discount on 3 months' bills being now 1½, and on 4 months' 1⅝ per cent. Consols have recovered the previous decline of ⅛, being again quoted at 100⅛, and French Rentes are ¼ up, at 107½,—a somewhat unexpected move we should say in face of the existing political situation. Rupee Paper is again lower, by ¼ in Fours and ⅛ in Fours-and-a-half, the quotations now being 80½ and 83 respectively. Hongkong Shanghai Bank shares are 10s. higher.

In the General Produce markets Wheat and Seeds are reported unchanged. Coffee is quoted ½a per cwt. higher.

The improvement in the Liverpool Cotton market continues, the tone at the close yesterday being firm, and the sales 12,000 bales including 1,200 Surats. The advance in prices is confined to American, which is 1-16d. higher on the spot for early delivery, and 3-64d. to 1-32d. for distant arrivals. In New York, too, Mid-Uplands on the spot are 1-16 cents, and futures 6 points higher at 10 13-16 and 10·38 cents per lb. respectively.

Here a firmer tone is apparent again to-day, and there is more inquiry on the part of exporters. Some small purchases are reported of strict F.G.F. Bombay pressed Dholeras at Rs. 178 and Native Good Oomra at Rs. 180. New crops are also being more asked for, and the market may be called decidedly steady at about Rs. 216 for Broach and Rs. 190 for Oomra. News from up-country regarding the growing plant is not quite so satisfactory, rain being generally wanted throughout the districts.

WHEAT is firm at previous rates.

LINSEED meets an active inquiry owing to limited supplies, and the quotation is now Rs. 5-14 per cwt., business having been done as high as Rs. 5-15.

FREIGHTS are not materially altered. For Liverpool 25s. for wheat remains the current figure, and for Antwerp 17s. 6d. has again been done. The s. s. Empire is reported fixed for early loading between Bordeaux and Hamburg at 21s. 3d.

IN IMPORTS we hear of no change.

EXCHANGE.—At the biddings for Councils in London yesterday only Rs. 30,000 in drafts and 6-lacs in telegraphic transfers found buyers at 1s. 7d., while the entire sales during the week only made up a total of Rs. 7,20,000. In addition to the weakness thus evinced, shipments of Silver are advised to the extent of £130,000 for this port and £80,000 for Calcutta, and of Gold to the amount of £30,000 and £10,000 respectively. It was only to be expected, therefore, that the market here should open to decided ease with a decline of 1-32d., at which the banks, moreover, are buyers forward. The Council drawings for next week are telegraphed as reduced to 15 lacs, but this means practically nothing under the new system of private sales, and even were it otherwise it is manifest the effect would only be to make Silver the medium of remittance, as it is evidently plentiful at a price equivalent to Rs. 7 7-16d. per rupee. Closing quotations for ready bills to-day are :—

Bank Bills on demand	Rs. 7 17-32d.	per rupee.
Do. Telegraphic	do. 7 15d.	"
Do. Three months' sight	Rs. 7 19-32d.	"
Credits do.	do. Rs. 7 11-16d.	"
Bankers do.	do.	"

GOVERNMENT PAPER has been steady again to-day at Rs. 98 15-16 for Fours and Rs. 101½ for Four-and-a-half. Activity, however, is checked by the decline reported in London.

SHARES.—Spinning and Weaving Mill shares are somewhat steadier again, the low level to which rates had declined having brought out a few buyers. In some cases prices have recovered Rs. 5 to Rs. 10 per share, but we doubt the permanency of any improvement so long as the situation in China remains unaltered. Bombay Burmah new shares have receded to Rs. 990; Treacher and Co., Limited, to Rs. 1,170.

DEFECTIVE OR FAILING SIGHT.

THE sense of sight is so valuable that the importance of perfect and carefully adjusted spectacles can scarcely be overrated ; although the wearing of single eye-glasses should be strictly avoided, we have the highest medical authority, confirmed by daily experience, that imperfect glasses, together with the haphazard plan of selection generally employed, are frequent causes of irremediable injury to the sight ; and as no present economy can compensate for such a loss, it behoves all to be cautious how they are tempted to use the common pebble or glass spectacles now so generally sold.

For the guidance of those who are using pebble spectacles, it may be stated that when the pebbles are cut *against* the grain, and not polished on the principle which has been universally declared the most appropriate based on scientific research, they are injurious to the sight.

Unadvisable as the unnecessary wearing of spectacles undoubtedly is, the common notion that their use should be postponed to the utmost is proved beyond dispute to be a grave mistake.

Being in possession of all the optical instruments taken over by us from Dr. A. Menist, we are not only in a position to suit the eye sight to perfection, but to supply different accommodations for each eye when so required, if needed.

The Zhob Valley force will advance from the base at Dukki in two columns, the first marching on 1st October, the second about the 7th October. THE MAKRANI AFFAIR.

(FROM OUR OWN CORRESPONDENT.)

JUNAGHUR, August 27.

The Makranis living in Inaj had assumed a threatening attitude for some time. The headmen recently severely wounded a relative of the inamdar and defied the authorities sent to inquire into the matter. The British Agency was consulted. A European officer was deputed to induce the Makranis to surrender and submit to the authorities. But his advice was disregarded. The Makranis fired upon the police, wounding and killing some of the Junaghur party. Whereupon a fight occurred, resulting in six killed and fourteen wounded on the Junaghur side, and six killed and three wounded on the side of the Makranis. Some of the Makranis were captured, and others escaped. The British officer was all along present on the spot.

A NATIVE STUDENT'S FREAK.

(FROM OUR OWN CORRESPONDENT.)

CALCUTTA, August 28.

The Bengali schoolboy is given to distinguishing himself in an unenviable manner. Last week a number of pupils of the Presidency College, Calcutta, perpetrated what a native paper calls a joke at the expense of an unpopular professor, by eating or throwing away his tiffin, which had been placed in a small room adjoining the class-room. The Principal of the College has rusticated one boy for a year, and suspended the whole class of the third-year students pending the orders of the Director of Public Instruction on the case.

THE MUNICIPAL DIFFERENCES AT SIMLA.

(FROM OUR OWN CORRESPONDENT.)

SIMLA, August 28.

Mr. A. O. Hume, vice president of the Simla Municipality, has resigned, presumably on account of the defeat sustained by the party he represents in the recent Municipal elections. The effect of this action will probably be to throw the entire management of Municipal affairs into the hands of the opposite party, who claim the title of popular.

The annual October vacation of the Bombay High Court, Appellate side, will commence on Monday, October 13, and end on Saturday, November 15.

The appointment of Mr. J. B. Murzban to be a delegate to aid in the adjudication of cases arising under Act XV. of 1865 within the local limits of the Parsee Chief Matrimonial Court of Bombay, *vice* Mr. Jehangier Cowasjee Jehangier, is notified in the *Government Gazette*.

The mortality from cholera in Bombay seems to be on the increase. From the Health Officer's return it appears that cholera carried away eighteen persons in the course of the week ending August 26, against fifteen in the preceding week. The mortality, however, continues to be much below the average. During the corresponding week of last year there were no less than 74 fatal cases, while the mean of the corresponding weeks in the preceding five years was 24.

During the past week the mortality was greatest among the native Christians, of whom ten died. Nine of the cases occurred in Dhobee Talao. Notwithstanding the increased prevalence of cholera, the health of the city is on the whole satisfactory.

It is notified in yesterday's *Bombay Government Gazette* that the next examination in connection with the Police Department "will be held at the Council Hall, Poona, on Monday, the 6th October next, at 11 p. m. (Madras time)." What have the unlucky police officers done that they should be visited with the displeasure of Government in this form? True, there is a certain amount of regard for the eternal fitness of things in fixing an examination for police officers at an hour when all good people are supposed to be asleep; at the same time, it is to be hoped that this circumstance will not deter the officers from presenting themselves at the examination, or that better still, that the Government will think it wise to change the hour from 11 p. m. to 11 a. m.

The following is the official summary of the Bombay Presidency season reports for the week ending Aug. 26:—Slight rain throughout the Presidency excepting Sind; more wanted in several talukas in the Deccan and Southern Maratha Country. Young crops already withering in parts of Surat, Poona, Ahmednuggur, Dharwar, and Kaladgi. Cholera in eleven districts, small-pox in ten, fever and cattle-disease in eight."

The judges of the High Court have made a rule to the effect that a process issued by any court in British territory should be served free of charge by any court (including the Small Cause Court) in the Presidency, if it be certified in the process that the proper fee has been levied under the rules in force in the territory in which the court issuing it is situated. The rule having been confirmed by the Bombay Government, has received the sanction of the Governor-General in Council.

The total rainfall at Lanowlee this monsoon up to the evening of Saturday, the 23rd inst., was 120 inches and 24 cents.

"Hindu and Mahomedan Laws and Customs" is the title of a cyclopœdic work, *now in the press*, consisting of six bulky volumes from the pen of *Mr. Cadwallader Waddy, barrister-at-law of the* Madras Bar.

The destination of the 2nd Battalion European Infantry, which left Goa on the 16th instant by the *British India steamer Canara, turns out to be* Quilemane, and not Mozambique as was supposed. *Another regiment from Portugal, which was under* orders to relieve the 2nd Battalion at Goa, is now *proceeding to Africa. It is believed that the Bonga* has taken up arms again, owing to the concession to Captain Paiva de Andrade of an extensive territory of Zambesia *which he believed to be his own pro*perty. Another story is to the effect that the *Landins attacked the fort of Senna, killed the gar*rison, and took possession of the district.

We are told by the Allababad paper that the new rules for subscriptions for, and grants of, pensions for the families of members of the Civil Service who have entered since 1881 very closely resemble those they supersede, with some unimportant alterations in the proportionate value of pensions paid in India in rupees or in England in sterling. Instead of a fixed percentage on the monthly salary, the subscription is paid by grades according to length of service, an arrangement which would press heavily if promotion were as slow in the future as now. A novel feature in the regulations is the payment of a rather heavy donation on the birth of a child. The donation may be paid in instalments, but interest is chargeable on arrears. The pensions offered are nearly, if not quite, as liberal as those now given: daughters on marriage will only get £250 instead of £300, and motherless orphans will only get £250 a year all told. The charitable grants for children incapacitated from earning their own living find no place in the stricter rules of the new Government Fund. The Government ...e the right to reduce the benefits, if it finds the cost to the State exceeds £35,000 per annum.

The *Englishman* commends to the attention of the resigned Municipal Commissioners of Calcutta a boiling extract from a paper on cholera fungus recently read by Dr. Pettenkofer, the eminent German physiologist. After pointing out that, in the endemic regions of cholera in Lower Bengal, the maximum of cholera cases occurs in March and April, coincident with the minimum of humidity of soil, he concludes his paper as follows:—"That the local and time factors played leading parts in the cholera process is no theory, but simply a fact that can at last, after thirty years, be regarded as settled. Further investigations have to show the relation of the cholera bacillus to them. Until this relationship has been shown, our prophylactic measures will have to remain as they are. We can, as is well known, seek to combat the disease in three directions; in the direction of the spread of the infective material, in that of the local disposition, and that of the individual disposition. Up to the present only those hygienic measures have shown themselves efficacious which are aimed at the local and time disposition, which ensure the cleanliness of our dwelling-places, the principle being thorough drainage of houses and infected localities, by means of which the foul water that forms a nutrient solution for low organisms is carried away." The Calcutta paper sees in the German *savant's* conclusion a clear indication of the necessity of basti improvement and the obliteration of foul tanks as certain means of mitigating cholera.

Mr. F. T. Atkins, the "working men's delegate," has been haranguing a public meeting at Allahabad on the subject of the disabilities of Europeans in India. He gave the India Office a piece of his mind:—

He described Lord Kimberley as the most conceited man he had ever met, and said he believed that if an angel came down from heaven Lord Kimberley would consider his own opinions superior to those of the angel. . . . The terms of the Gilchrist Scholarship had been altered by making it necessary for one of the parents of the children who were benefited to be a native of this country, and in doing this the Government and Secretary of State had been guilty of sacrilege, as they had altered a dead man's bequest.

A Mr. Duffill, who was equally forcible in his language, gave a graphic account of the woes of Europeans in this country fifty years hence. His speech was embellished with frequent allusions, more or less apposite, to incidents in classical history. He likened the Government to Diogenes with his lantern; they had searched everywhere for an honest man, and when they came to the Bengali Babu they put their hand on him and said, "[illegible] just the man we want." This kind of [illegible]ppears to have been effective, for we are told [illegible] the local paper that before the close of th[illegible]ng 75 of those present joined the Defence As[illegible]on.

The Allahabad paper learns that it has been finally settled that the escort for the Boundary Commission shall consist only of cavalry, namely, 200 Lancers to be furnished by the 11th Bengal Lancers. Major Bax will command, with two officers under him—Captain Heath and Lieutenant Drummond. The same paper hears from Kasauli that General Wright has left that station for Umballa to inspect the escort before departure for Biluchistan.

The *Pioneer* says that Lieutenant-Colonel Ridgeway was obliged to postpone his departure from Simla until yesterday. "The personal movements of members of the Commission," it adds, "appear to be of the less consequence because it is almost impossible that the sumpter animals required can be got together in the specified time. With the same policy that has marked the management of everything connected with the Commission—treating the whole affair as though it was some discreditable secret service—the transport, like the escort itself, has been left indefinite up to the last moment, when orders have been passed for the collection of 300 camels and 500 mules at Sibi by the last day of the month. How 300 camels are to be got together at Sibi at a day's notice we do not pretend to know. We should think only by railing them up, the cost of which would be an important item in the expenses of the expedition. However, as the programme now stands, the camp leaves Rindli on the 4th proximo and moves to Mach in the Bolan, where everything will be put in trim for a final start, which should be made as soon after the 10th as possible."

The Government of India in the Survey Department are about to present a piece of plate to Mr. Perry, an Assam planter, in recognition of his services to Colonel Woodthorpe's survey party on their expedition into the Daphla country last cold weather. Mr. Perry, from his dealings in the rubber trade, was, it is said, the one European who knew anything of the tribe, and his local knowledge and influence were invaluable to the explorers.

The efforts of the friends and partisans of the Tichborne Claimant in Australia to obtain an order for the removal to England of a man known as William Creswell, now confined in a lunatic asylum at Paramatta, and alleged to be identical with Arthur Orton, seem likely to be finally successful. The application has been resisted on behalf of the Crown on the basis of affidavits tending to show that the lunatic is really one William Creswell, of the Creswell family of Reading, Berkshire, and tracing this man's movements from the time he came to the colony in 1853 with live stock, for a certain Mr. Kite, of Bathurst, in whose service he is stated to have remained for some years, and up to his confinement as a lunatic. On the other hand two brothers of Arthur Orton, namely, Edmund and Charles Orton, now in Australia, the latter of whom will be remembered as figuring prominently in the proceedings on the Tichborne trials, though he was not called as a witness by either side, have filed affidavits positively identifying the man in the Paramatta Lunatic Asylum as their brother. As the physician of the asylum has stated that a sea voyage would probably be beneficial to the lunatic if he is properly looked after, and as the Orton brothers appear to be provided for that purpose with the requisite funds, which are said to have been furnished by an English lady, it appears to be considered that the Crown will withdraw its opposition, and that the application will be granted under certain conditions.

Serious disturbances have occurred at a holy well at Mother, in Ireland. The well has from ancient times been visited by penitents and sufferers from physical ailments in search of relief, and festivals have recently been held. The religious observances, however, have been followed by desperate faction fights, in which much blood was spilled and many heads broken. On August 6 the local magistrates sentenced twelve ringleaders to various terms of imprisonment.

The affairs of the Duke of Marlborough came before the Court of Chancery in two respects on the 2nd inst. Vice-Chancellor Bacon, on being informed that the consent of every member of the family had been obtained, sanctioned the perpetual pension of £4,000 being commuted for twenty-three *and a half years' purchase. Before Mr. Justice* Chitty an application was made in consequence of the late Duke having substituted crystals for the diamonds in a State sword after the latter had been made an heirloom. The diamonds were exchanged for others, which were made into a necklace for the Duchess of Marlborough. The necklace was now made an heirloom, and the court gave effect to the arrangement.

The Ghetto at Rome has been doomed by an improving but impecunious municipality, and visitor who used to wander through the intricate maze in pursuit of old lace or of old bronzes, or in quest of fragments of pillars and inscribed slabs built into the doorposts, will find their occupation *gone. Intimately associated as the quarter is with* memories of the Jews, it was not always their home in Rome, and Paul IV. was the first Pope who removed them across the river from the Trastevere into the shadow of the sombre Tower of Marcellus. *The same Pontiff was notorious for his cruel treat*ment of the aliens, and rigorously enforced attendance at the annual sermon on Holy Cross Day, when such miraculous conversions were made, for reasons which may be found in Mr. Browning's *familiar spoutze.*

DEPARTURE OF THE ROYAL IRISH REGIMENT FOR EGYPT.

The second detachment of the Royal Irish Regiment, consisting of 694 men, all told, arrived yesterday morning at the Sassoon Dock by a special train from Deolali, and left for Egypt in the hired transport steamer Hankow, along with the first portion of the regiment which came to Bombay on Tuesday. There was no such demonstration as is usually to be seen under similar circumstances, but the absence of anything like a public manifestation of good-will was, no doubt, owing to the inconvenient hour of their arrival, and the out-of-the-way place whence they were quietly disembarked. The Royal Irish go under the command of a distinguished officer, Lieut.-Colonel Shaw, V. C. Ever since they were engaged in the famous battles of Blenheim and Ramillies, this regiment has seen active service in various parts of the world, such as Egypt, China, Peru, New Zealand, and Afghanistan. The latest engagement in which they distinguished themselves was the battle of Tel-el-Kebir. One of the other regiments which have been warned for service in the land of the Nile is the Surrey Regiment, which is expected here on the 8th proximo. In addition to the officers, whose list has already been given, Surgeons Lafling and Hickson proceeded in the Hankow for Egypt.

CRICKET AT BELGAUM.

(FROM OUR OWN CORRESPONDENT.)

BELGAUM, August 24.

1st Battalion Rifle Brigade v. the Station.—This match was played on the 21st and 23rd August, and resulted in a victory for the Rifle Brigade by 94 runs. The wicket was wet and difficult throughout. The principal features of the game were the long stand made by Captain Metcalfe and Private Goldsmith in the first innings of the Rifle Brigade, the useful 52 of Captain Raikes, and the good bowling of Private Froggart in both innings. Mr. Gordon did yeoman service for his side, getting 6 wickets for 53 runs in the first innings and 6 wickets for 31 runs in the second, and scoring 16 and 28. Mr. Preston made a catch at long leg which was the admiration of the field. This promising young cricketer will make his mark. Subjoined is the score:—

TELEGRAPHIC WEATHER REPORT.

Simla, August 28.—The barometer has continued to rise generally, but there are several local exceptions, a decrease being reported from the lower part of the N.-W. P., from Gya, from several stations in the Central Provinces and Central India, and from Bombay. A band of low pressure extends eastward from Gujrat to Behar, while relatively high readings are reported from the Punjab, Burma, and Travancore. To-day two main currents of wind are shown, a westerly one over the peninsula and an easterly one over Northern India; while in the intermediate region the wind is variable. Rain continues heavy along the west coast, and a rather heavy shower has fallen over Agra and Morar; elsewhere amounts are not heavy. There is no rain reported from the Punjab except Multan and Simla, none from Behar, none from Sind, none from the Carnatic, none from Rajputana—except Mount Abu; elsewhere it is general. Rain to-day:—Carwar and Mercara, 6 inches; Ratnagherry, 3½ inches; Calicut, 3 inches; Agra, Morar, Ahmednuggar, Mangalore, and Akyab, 2 inches; Silchar, Nagpore, Seoni, Jubbulpore, Amraoti, Deesa, Malligaum, Goa, Belgaum, and Vizagapatam, over 1 inch. THE CAUSES OF CHOLERA.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

Sir,—At the Town Council meeting held on Wednesday, the 20th instant, Dr. Blanc took occasion to point out to the Council that five deaths from cholera had occurred in the Funneswady sanitary district during the week ending Tuesday, and he pushed the moral that an underground system of sewerage was required in order to prevent the recurrence of cholera in that district.

At yesterday's meeting of the Council, Dr. Blanc made no allusion to cholera deaths. What occurred in regard to cholera was this:—While there was no cholera death in the Funneswady district, there were nine deaths from that disease in the Dhobie Tallao district; as a matter of fact, cholera had transferred itself from Funneswady to Dhobie Talao. Now, Dhobie Tallao is sewered by a system of underground sewers of old date; by a system of scientific sewerage introduced about twelve years ago by Mr. Walton, of which broken-joint house connections form a distinguishing feature; and by the new Queen's-road sewer. With all these anti-choleraic appliances the fell disease entered the district, and caused a mortality there equal to that of the whole city besides.

I do not attribute this serious outbreak of cholera to underground sewers, and yet if I were to follow the reasoning of Dr. Blanc I would do so. I refer to the matter only to beseech Dr. Blanc to study more closely the cholera history of Bombay before coming to conclusions; for indeed there is much to be learned by careful inquiry, especially a *close inquiry into the existing water-supply system.* We all know that Dr. Blanc proposes to keep *cholera away from the city without giving the people* an additional water-supply, or shutting up the unnecessary cesspools, and the worst, if not all, of *our public wells. In taking this side of the sani*tary question I believe Dr. Blanc is in error, and *hope to bring him round to a better way of think*ing before he leaves India; to a way which will be quite in accordance with the latest views of our *greatest cholera pathologist, Dr. Koch.*—Yours faithfully,

THOMAS BLANEY.

THE VOLUNTEER MOVEMENT.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

Sir,—Referring to your editorial remarks anent the Volunteer movement in Bombay, there is not a doubt that you are correct in your statement that the movement has not retrograded, as far as numbers are concerned. *Yet I make bold to say* that in another way the movement has retrograded. I mean that the rank and file of the Bombay Volunteer Corps is not anywhere near the mark it *was when the movement was first started, inasmuch* as in the main the corps has fallen off in stamina, *and the class of our community which forms the* Volunteer Corps at present is not so good as when *the corps was first formed.* Hundreds of young able-bodied Europeans hold aloof from the Volunteer Corps. This was the case when the corps was first formed; but very many hold aloof now who were formerly members of the corps. In our company.—A Company—we had as fine a body of men as one would often see in any corps —regular or volunteer. But after the first two drill seasons A Company fell off until it was nearly extinct. And if the ranks of A Company have ever been recruited, I am sure the recruits do not come up in physique to the original membership of the corps. And I daresay it is the same with the other companies in the Corps. But, setting aside one side, the Volunteer movement in Bombay does not have advanced until the corps has shrunk in point of numbers, turning out 750 rank and file at the very least, and the corps would long since have arrived at this figure had Volunteering ever been very popular. The fact is that even at the start, Volunteering was not nearly so popular in Bombay as one would suppose. Hundreds of young men lined the roadway and lounged on the Club verandah or about the Gymkhana, and elsewhere, instead of taking part in the movement. Why this was so, I never could understand. Will these young men ever be induced to Volunteer? I fear not, unless some very sudden movement is made by people who have influence on others. The climate in India is against Volunteering, and in Bombay the distances are too long to bring the corps together. Yet for all this, I can see no reason why Volunteering should not go ahead if people will come forward. Will anyone make a move and try to enrol Volunteers—members of the clubs, members of the Gymkhana, hundreds of young men everywhere in the Fort, in banks, business offices, shops, hundreds of young men out of the Fort? Can fresh life be put into the Volunteer movement? Can, say, five hundred active Volunteers be induced to join the corps ere the next drill season? If so the Volunteer movement will be a success in Bombay. If not, the corps will go on pretty much as it has done for the past two or three drill seasons, turning out a hundred or a hundred and fifty on ordinary parades and perhaps three hundred on their inspection parade. Is the corps as it at present stands worth maintaining? Undoubtedly. But does such a corps do credit to our city? I trow not.

August 28. AN OLD VOLUNTEER.

WHO WILL PAY THE PIPER?

TO THE EDITOR OF THE "BOMBAY GAZETTE."

Sir,—I notice that the cost of the Boundary Commission is estimated to amount to several lakhs of rupees. The question is, which of the two countries will bear this expense—India or England? To say anything on this subject just now would perhaps be premature. But I venture to remark that the Afghan difficulties and the policy pursued by our Government in connection with them have already cost India a great deal.

Dr. De Jongh's Light-Brown Cod Liver Oil.

The facility with which this Oil is digested is one of its peculiar characteristics. Dr. Edgar Sheppard, Professor of Psychological Medicine, King's College, writes:—"Dr Shepp-ard has made extensive use of Dr. de Jongh's Light Brown Cod Liver Oil, and has great pleasure in testifying to its superiority over every other preparation he has met with in this country. It has the pure excellence of being well borne and assimilated by stomachs which reject the ordinary Oils." MADRAS TIME IN THE MOFUSSIL.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

Sir,—I entirely agree with your correspondent "Zakariay" that the order to observe Madras time in the mofussil is, indeed, one which has caused serious inconvenience. Poor people and day-labourers suffer the most. As an instance, I may say that when Bombay time was observed day-labourers used to be present at their work at 8 a.m. till dusk; but now, as Madras time is observed, these men are under the necessity of being present at their duty at 8 Madras time or 7½ Bombay time, instead of 8 Bombay time. So you see, sir, that the contractors or muccadums who engage these day-labourers get out of them half-an-hour's work more than they did before an artificial time became the fashion, and this too without any extra pay. The sooner the order is cancelled the better. Besides, I do not see the reason why you all in the town of Bombay should be considered fleah, and we in Poona fish.

The prisoner pleaded guilty to the charge, and on admitting a previous conviction he was sentenced to three months' rigorous imprisonment, and to pay a fine of Rs. 15, or in default to undergo a further term of fifteen days' similar imprisonment.

IN submitting their Price List for Gentlemen's Clothing they most respectfully invite comparison. (Patterns and instructions for self-measurement sent to any part of India.) In making the comparison it must be borne in mind that many classes of goods of inferior quality are obtainable at very low prices. These we do not keep knowing from experience that they do not give satisfaction, but the quotation of these by others gives an appearance of cheapness that is not warranted.

CAUTION.

UNREMITTING thought and labour are bestowed upon a speciality. It is, after great care and exceeding difficulty, crowned with success ; when lo ! immediately there arise swarms of imitations resembling the original closely enough to deceive the Public, and yet not so exactly as to infringe upon legal rights. These imitators, not having, perhaps, the means, or the experience, or the intelligence to push an honest article independently to the notice of the Public, are content to wait and look out for successful experiments by others, and then to adopt the semblance of such, and style these spurious productions the "original" or the "genuine" article. A better illustration of this cannot be cited than the famous case of Johann Maria Farina's Eau-de-Cologne. As soon as it became known that this justly celebrated Perfume commanded the market, the country was scoured for all the Farinas that could be found, they were brought to Cologne, and paid for the use of their name to push spurious articles into the market, styled the genuine Eau-de-Cologne of Farina ! !

In 1864, for the first time, SCHIEDMAYER and SOEHNE'S Pianos were introduced into India. After careful observation and constant practical experiment we discovered the qualities necessary for making this marvel of cheapness and excellence suitable for the Indian Climate As soon as the necessary alterations and additions were made to these instruments, we caused an ivory medallion to be inserted over the name of the makers, and on this is stated that these Pianos are "Built expressly for the Indian Climate by order of C. Marcks and Co., Bombay and Poona." Without this we can guarantee none to be genuine.

The fame of these Pianos had scarcely gone abroad, when in came imitations promising everything, and leaving the unfortunate purchasers to find out the good qualities after purchase.

All who have tried our Pianos declare them perfection. We can guarantee Perfection only if the Instruments pass through our hands.

The most superb Pianos in outward appearance, interior construction, tone, touch, and repeating action can be seen at our Depot of

SCHIEDMAYER and SOEHNE'S Pianos,
Opposite the University Clock Tower.

☞ See that you ask for, and more especially that you get, SCHIEDMAYER and SOEHNE'S Pianos. We can guarantee no other genuine.
